

Purple penguins

22.11.21

This week's homework is arrays and is recapping arrays. Can you have a look at the worksheet and have a go at writing in the calculations.

Arrays

Write two multiplication sentences for each array.

$3 \times 4 = 12$ $4 \times 3 = 12$		
--	--	--

--	--	--

Can you think of a different calculation and draw your own array?

--

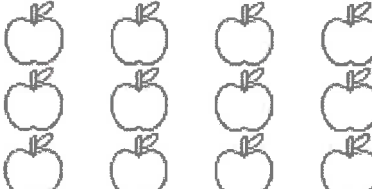

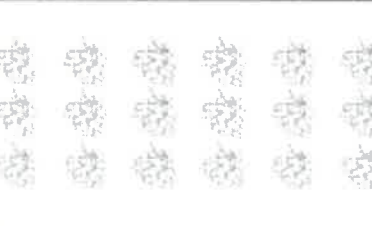

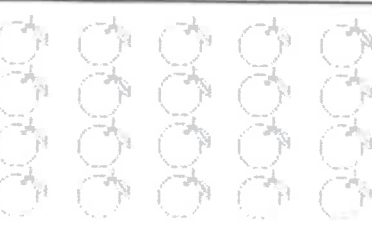

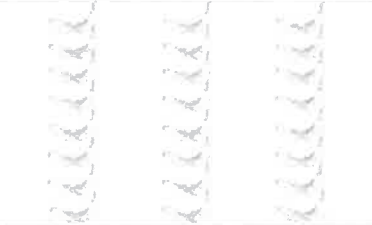

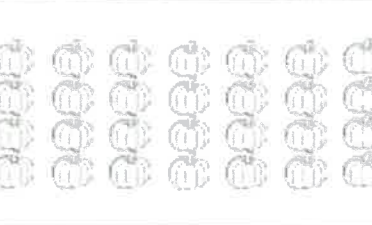

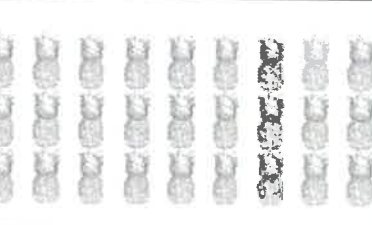

Turquoise Turtles

22.11.21

This week's homework is arrays and is recapping arrays. Can you have a look at the worksheet and have a go at writing in the calculations.

Multiplication Using Arrays

Write two multiplication sentences for each array.
The first one has been done for you.

		
$2 \times 5 = 10$ $5 \times 2 = 10$		
		
		

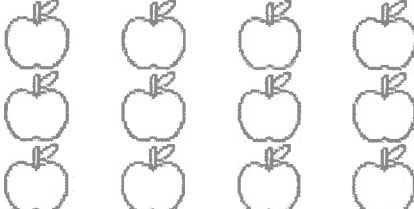

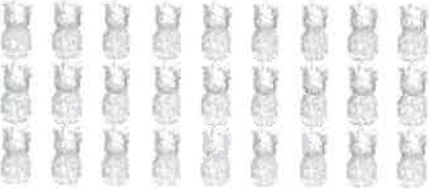

Can you think of a different calculation and draw your own array?

Magenta monkeys

22.11.21

This week's homework is arrays and is recapping arrays. Can you have a look at the worksheet and have a go at writing in one calculation for each array.

Multiplication Using Arrays

		
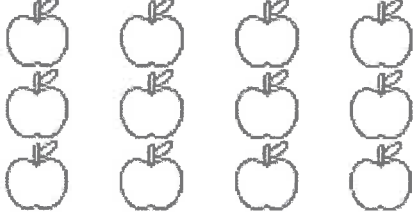

$5 \times 2 = 10$		
		
		

22.11.21

This week's homework is arrays and is recapping arrays. Can you have a look at the worksheet and have a go at writing in one calculation for each array.

Multiplication Using Arrays

Write two multiplication sentences for each array.
The first one has been done for you.

		
$2 \times 5 = 10$ $5 \times 2 = 10$		

Can you draw an array for $2 \times 4 =$
